How to join the meeting by Teams & Top Tips

Instructions for Joining a Virtual Teams Meeting V1.2.pdf

- Non-Board members are asked to turn off their cameras.
- Please mute your microphone

- On a laptop, you can split your screen so that half is Teams, and half shows your meeting papers (open both things you want open; click on the top of the first one and drag it to the left - let go when your cursor touches the edge of the screen. Then do the same with the other document but to the right). There is guidance on how to do that on an iPad here

- If you have two devices, you may wish to have your meeting papers on one and Teams on the other.
